Section D NEPA Determination for Construction and Use of a Low Level Mixed Waste Storage Facility

Carol M. Borgstrom, Director, Office of NEPA Oversight, EH-25, HQ

Under authority delegated from the Assistant Secretary for Environmental Restoration and Waste Management, Rocky Flats Office has determined that an Environmental Assessment is the appropriate level of NEPA documentation for a proposal to construct approximately 25,000 square feet of waste storage facilities at Rocky Flats Plant. Construction of a building or structure listed as an action normally requiring an environmental assessment under C16 in Appendix C of Subpart D of 10 CFR 1021, the new NEPA regulations. The current programmatic intent is to construct tent-type structures, rather than a metal building proposed in the original Action Description Memorandum.
